Education

Vellore Institute of Technology

Bachelor of Technology in Computer Science and Engineering

May 2023 – May 2027

CGPA: 8.99/10

Maharishi Vidya Mandir School

Class XII – 89%

Apr. 2021 – May 2023

Gurucharan Kaur Public School

Class X – 83.6%

Apr. 2009 – Apr. 2021

Projects

FulfillQ

Java, Spring Boot, React.js, MySQL, Kafka, Redis

July 2026 – Aug. 2026

- Engineered a distributed order fulfillment platform that routes orders across multiple warehouses based on inventory availability and warehouse proximity.
- Implemented concurrent inventory reservation using MySQL pessimistic locking to prevent race conditions and overselling during simultaneous orders.
- Built automatic order splitting, shipment tracking, role-based warehouse operations, and event-driven workflows using Spring Boot, React.js, and Kafka.
- Integrated Saga compensation, Transactional Outbox, Redis caching, idempotent APIs, Kafka retries with DLQ, and OpenTelemetry tracing for fault-tolerant distributed processing.

HireHub

Java, Spring Boot, Spring Security, Hibernate, React.js, MySQL, JWT

May 2026 – July 2026

- Developed a full-stack recruitment platform connecting candidates and recruiters through job discovery, applications, and candidate management workflows.
- Implemented JWT-based authentication and Spring Security role-based authorization for Candidates, Recruiters, and Admins across protected REST APIs.
- Built recruiter job posting, candidate profiles, resume uploads, job applications, application tracking, search, filtering, and pagination using Spring Boot, Hibernate, and MySQL.
- Designed responsive React dashboards with role-specific workflows and analytics to streamline recruitment operations and improve application visibility.

TaskFlow

Java, Spring Boot, Spring Security, Hibernate, React.js, MySQL, JWT

Apr. 2026 – May 2026

- Built a full-stack task management platform for organizing projects, assigning tasks, tracking status, and managing deadlines through a centralized workspace.
- Implemented secure JWT authentication and Spring Security role-based authorization to protect user-specific resources and REST endpoints.
- Developed RESTful APIs with Spring Boot and Hibernate for project, task, user, and workflow management with structured relational data persistence.
- Created responsive React dashboards for project and task visibility, enabling users to monitor assignments, progress, and upcoming deadlines.

Technical Skills

Languages: Java, HTML5, CSS3, SQL

Frameworks: Spring Boot, Spring MVC, React.js, Spring Security, Hibernate, JDBC, RESTful APIs

Databases: MySQL

Distributed Systems: Apache Kafka, Redis

Co-Curricular Activities

BitByBit Club, VIT

Dec. 2025 – Mar. 2026

General Secretary

- Led cross-functional teams to organize workshops, hackathons, coding competitions, and recruitment drives.
- Managed planning, task delegation, and execution of multiple technical and non-technical events.
- Coordinated communication between leadership and members, ensuring smooth collaboration across teams.

Certifications

- ServiceNow Virtual Internship Program
- NPTEL – Marketing Analytics
- Deloitte Technology Job Simulation
- NPTEL – Introduction to Machine Learning

Achievements

- Secured a **Top 50 position among 800+ teams** at the **Solvit Hackathon**.
- Completed a **100 Days of Code** challenge, maintaining consistent daily practice in Java, DSA, and problem-solving.
- Participated in the **#DrGViswanathan Challenge** at VIT, engaging in structured technical and coding activities.
